Seam Barstool
Technical Specifications

UPDATED • 04.11.26

Through a series of cuts, folds and joins, the Seam Barstool - an elegant, contemporary outdoor metal barstool - is conceived with a design process not dissimilar to the tailoring of a piece of fabric into a form-fitting garment.

FEATURES

- Aluminium seat panels
- Triple coated steel frame
- UV stable powder coat
- UV stable nylon glides
- Magnetised rubber seat pad option

The shell of the Seam contemporary outdoor metal Barstool is formed and folded from a single piece of aluminium whose ends meet to create a 'seam' along the spine of the chair, giving the collection its eponymous signature detail.

The Seam collection is Australian designer Adam Cornish's first collection for Tait. An elegantly resolved and comprehensive collection, Seam delivers a system of seemingly endless seating and table formations for a mixture of applications.

The collection is a deliberate composition of essential pieces – dining chair, stacking chair, barstool, bench seat, dining table, café table and bar table – each with multiple colours, finish and shape alternatives.

Seam is a collection that is revered by architects and designers alike for its ability to speak to a range of residential and commercial contexts along with the assurance of genuine local manufacture using sustainable methodologies, quality craftsmanship supported with a manufacturer guarantee and product longevity.

Spanning commercial to residential and hospitality to corporate applications, each piece in this comprehensive collection is designed for outdoor use, though it is equally at home indoors.

All Tait pieces are made locally and come with a 10-year warranty.
Tait's original designs are protected under design registration and copyright.
